

WE Pharma - Sourcing Comparator Drug Products for Clinical Trials

WE Pharma are experts in **comparator product sourcing**, rescue or concomitant medications as well as ancillary medical supplies that are required for clinical trials. We have an extensive network of suppliers that helps us find the right **clinical trial comparator products** for our customers. With our thorough knowledge of the UK and EU pharmaceutical market we ensure confidentiality of the customer and supplier which is a priority to maintain a long-term relationship as a **comparator sourcing partner**.

Meeting Quality Standards

We give utmost importance to meeting quality standards and adhere to cGMP and MHRA guidelines and also hold a UK Wholesale Dealer License. We have developed the following relationships and procedures to help us meet and maintain high quality standards:

- Compliance with UK, European and other International regulations and legislations.
- Wholesale Dealers License by MHRA.
- Internal Standard Operating Procedures which are fully documented and compliant with MHRA.
- Fully audited recall procedures.
- Full batch traceability for all products to facilitate **comparator product sourcing**.
- Storage of all products within GDP compliant warehousing.
- Regular audits of storage facilities and standard operating procedures by customers as well as regulatory authorities.

We have been audited by BSI and are certified for compliance with ISO 9001:2000 Quality Management Systems Registration

Pharmaceutical Product Sourcing for Clinical Trials

We procure and distribute **comparator drug products** for clinical trials as well as associated activities. Since we are solely involved in the distribution of **clinical trial comparator products** it has allowed us to form strong supply relationships with a wide network of pharmaceutical manufacturers.

Viability Analysis

We analyse the viability of the **comparator drug products** that you require for clinical trials by utilizing our in-depth knowledge of international markets and then advise you according to your quantity and time line requirements. We check for feasibility on the lines of product availability, product discontinuation issues, formulation change issues and cost.

Additional Comparator Sourcing Partner Services

We have a contract with a QP who can release IMPs ready for clinical trial use and is named on a license. Our partner analysis lab facilitates stability testing, formulation production and release testing. We also have access to QPs around the world in case of a requirement of an audit of a facility abroad.

We have a partnership with Placebo manufacturers who can effectively match study drugs through over-encapsulation and can also meet special liquid formulation requirements.

To further assist you as a **comparator sourcing partner** we also source and supply products that need to be specially manufactured to suit your needs like suppositories/IV formulations etc. We regularly visit other countries and source **comparator drug products** that may not be available in the dosage or formulation you require in the UK.

Outsourced Logistics

We have outsourced logistics to keep costs minimum, concentrate on sourcing **comparator drug products** and focus on the strengths of each part of the business. TPS Healthcare Group Ltd. is our logistics arm that provides pick up, storage and distribution. The state-of-the-art warehouses are strategically located in Central Scotland and Northampton for effective downstream distribution.
